Subject: Migration of DOT Pensioners from CPPCs to CPMS (SAMPANN)

I am directed to inform that Telecom pensioners, whose pension is being disbursed via CPPCs (Banks), are being migrated in to SAMPANN. The migration is being carried out in phased manner. Currently, the DOT pensioners whose pension was being disbursed by Bank Of Baroda (including Vijaya bank & Dena Bank merged with BOB) are being migrated in to SAMPANN.

Till date 795 pensioners have been migrated under bank data migration in 3 phases. Now for these migrated pensioners, pension disbursement is being done via SAMPANN by CCA circles.

To continue the migration of all DOT pensioners drawing pension via CPPCs, certain actions are to be taken up by CCA offices.

- CCA offices should prepare the data for all the pensioners in the given 78 fields excel sheet (Enclosure D) as was done during the Bank Migration pilot. The tentative plan and priority of Banks in terms of preparation of data would be:

S.No.	Bank	Tentative Schedule
1	Bank of Baroda (Including Dena and Vijaya Bank)	May, 2022
2	All other banks except PNB and SBI	July, 2022
3	Punjab National Bank	September, 2022
4	State Bank of India	December, 2022

- There should be 100% due drawn reconciliation for these cases as per PVA i.e. in these cases pension being paid by Bank in last few months and as per calculation of PVA/Pension records in CCA should be the same.
- CCA offices must identify cases where pension has been ceased.
